María José Flórez Quesada.

Nowadays, technology has a main role in our lifes as it give us the opportunity to access to different kind of content in a easy way, it is just a click and you are in it. However this entertainment is affecting the way which we can concentrate in front of different materials in our daily lifes because of the duration of this content and because of the time we spent in front of the screens.

In this way, this essay develops these

NEEDS TO IMPROVE !
